PAST PERFORMANCE

Our commitment to understanding the unique intricacies involved in the Federal marketplace ensures we deliver a service that allows our customers to achieve their strategic and operational objectives. We've built a team of highly competent and dedicated professionals with a strong sense of integrity and commitment to excellence. Our team has extensive experience supporting programs across all major federal agencies and branches of the military. Below is a sample of the customers' we've supported:

- **FAA** - 1FORCE is supporting the Federal Aviation Administration's (FAA) Cyber Security Management Center (CSMC). Under the terms of the contract, 1FORCE is supporting the Cyber Security Management Center (CSMC) to defend and protect the Department of Transportation (DOT), the Federal Aviation Administration (FAA) and other federal agencies from cyber attacks. 1FORCE provides highly proficient intelligence analysts with diverse skills related to computer network operations, counter-terrorism, signals intelligence and political/military all source analysis.
- **NAVY** - 1FORCE has been awarded a contract to provide the Naval Sea Systems Command Headquarters with professional support services in the areas of Program Management, Engineering Management, Logistics Support and Financial Management in support of the VIRGINIA Class Submarine, the Submarine Warfare Systems Engineer, and the Submarine Combat Systems Program Offices. 1FORCE is providing management of SBIR Data, engineering analysis, agency interface and status reporting of actions necessary for resolving PEO IWS technology issues, actions, requirements, and formulating and implementing technology program plans and procedures to enable the efficient execution of the technology programs as part of Navy Integrated Warfare System Programs.
- **Defense** - 1FORCE is providing systems security support for the DoD, Washington Headquarters Services' requirement for the provision of integrated security services. The Integrated Security Services Contract (ISSC) is a total system approach to automating and improving the physical security system used to protect Department of Defense (DoD) sites including, the Pentagon, and sites within the National Capitol Region (NCR). ISSC emphasizes the use of computer-based solutions to meet security requirements and integrates the operation of multiple subsystems to improve efficiency and control.
- **DHS/TSA** - 1FORCE is providing data communication services to TSA's Federal Air Marshalls Service. 1FORCE is providing VOIP expertise supporting FAMS VOIP initiatives for users throughout the US.
- **NAVY** - 1FORCE has been tasked to provide Information Security support for the Naval Surface Warfare Center (NSWC) – Carderock division. 1FORCE is providing various Information security support with an emphasis on network remediation.
- **Office of the Assistant Secretary of Defense for Health Affairs** - 1FORCE has been awarded a subcontract on DIESCON III to provide IT Services relating to Certification and Accreditation. 1FORCE has been tasked to provide system oversight in Information Assurance (IA) awareness. Conducting assessments of all required documents needed for certification and accreditation (C&A) of unclassified and classified systems / networks for Force Health Protection & Readiness Program.

* 1FORCE has the capabilities to support sensitive programs with the ability to provide resources with the following clearances: Confidential, Secret, TS/SSBI, TS/SCI, TS/CI, and TS/Lifestyle as well as other non-DoD clearances
